Primary logo

The Blinca logo pairs the speed mark - a bold b trailing motion lines - with a rounded, friendly wordmark. Together they say what we do: good food, moving fast.

Use the full lockup wherever there is room. It is never redrawn, re-spaced or retyped - always use the master files.

Clear space

Keep a margin of at least x on every side, where x is the width of the counter (the hole) in the b of the mark. Nothing - text, edges, other logos - enters this zone.

Minimum size

Lockup: 120 px / 30 mm

Symbol: 28 px / 8 mm

Master artwork: blinca-lockup-cranberry.svg

Logo variations

Start with the primary lockup. Switch to another version only when the background or the space calls for it - and pick the one with the strongest contrast.

Primary

Default on white and light backgrounds.

Reversed

White on Cranberry. Hero moments, packaging, rider kit.

One-colour dark

Ink only. Receipts, stamps, single-colour print.

One-colour light

White only. Dark surfaces and food photography.

Stacked

Square and narrow formats: posters, merch, signage.

Wordmark

When the symbol already appears nearby, e.g. app headers.

App icon

White symbol on a Cranberry tile. Never add the wordmark.

Badge

Social avatars, stickers, helmet and bag patches.

Please don't

The logo only works if it looks the same everywhere. If a layout seems to need one of these, change the layout - not the logo.

Stretch or squash it

Rotate or tilt it

Use colours outside the palette

Add shadows, outlines or effects

Place it on low-contrast colour

Rearrange or re-space the parts

Colour

Cranberry is the appetite colour - it should be the first thing people recognise. Warm neutrals give it room to breathe; Saffron is a small spark for offers and ratings.

Contrast rules

White on Cranberry (4.3:1): headlines 24 px and up, logo, icons.

White on Cranberry Deep (6.6:1): buttons and any small text.

Ink on Saffron (9.9:1) - never white on Saffron.

One typeface, one weight

Mundial's open, even shapes sit naturally next to our rounded wordmark. We set everything in Regular and build hierarchy with size, space and colour - never with bold.

Display 64 / 68, -2%	Hungry? On it.
Heading 1 40 / 46, -1.5%	Your favourites, delivered
Heading 2 28 / 36, -1%	Popular near you
Body 17 / 26, 0%	Your rider heads to the kitchen as soon as your food is ready, so it arrives hot - not waiting on a counter.
Caption 13 / 18, +2%	Delivery fee [PRICE] - 20 to 30 min - 1.2 km away

Sentence case everywhere. No all-caps headlines.

Headlines run tight, captions run open.

Fallback where Mundial can't load (e.g. email): system-ui.

Brand voice

We talk like a friend who knows every good kitchen in town - quick, warm and straight with you.

01

Quick

Get to the point. Lead with what people need right now: time, price, status. Short words, short sentences.

"Arriving in 12 min."

02

Warm

Talk like a person, not a platform. Say "you" and "we". Use the rider's first name. Thank people like you mean it.

"Got it - the kitchen's on it."

03

Honest

Say what's really happening - especially when it goes wrong. Real times, real fees, no fine-print surprises.

"Running 10 min late. Sorry."

04

Hungry

We love food and it shows. A little playful, never silly - one pun is plenty, and never when something's gone wrong.

"Dinner: sorted."

We are ... but not ...

Friendly, not over-familiar	**Confident,** not pushy
Playful, not goofy	**Clear,** not robotic

Tagline directions - for review

Hungry? On it.

Blink and it's here.

Good food, fast.

Voice in action

Same personality, different volume. We turn the playfulness down when something goes wrong and up when we're celebrating.
